

INTERACTIVE FLOOR PLAN

- Arrange Furniture & Move Walls Online*
- Shows Location of Electrical Outlets & Cable Connections

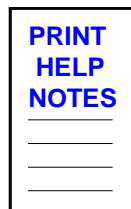

1. DOWNLOAD FLASH PLAYER

You **MUST** have a Flash® Player to run the program. Click on Icon to link directly to Adobe's site to download the (free) player.

2. PRINT HELP NOTES

HELP NOTES are inside the program. However, you will find it much easier to PRINT the notes now, and have them in front of you when the program launches.

3. READ, UNDERSTAND, & ACCEPT TERMS OF USE TO LAUNCH THE PROGRAM

* Contact the Listing Agent if you want a Technician to arrange your furniture for you.

TERMS OF USE

The plan's scale and dimensions are not 100% accurate. While every attempt has been made to ensure the accuracy of the floor plan, and the furniture symbols, measurements have been rounded for expediency. Multiple software programs have been used to create the drawings & symbols utilized here, and several software compression methods have been utilized to export the drawings into a presentable & usable online format.

Errors and omissions may be inadvertently reflected in this concept drawing. The positions and locations of electrical outlets / cable connections is approximated, and not all outlets on the property may be represented (some may have been obstructed by furnishings, or overlooked at the time of measuring.)

The floor plan animation gives you the capability to visually move walls, and no assertion is given or implied that doing so is structurally feasible, practical or possible.

User has the responsibility to independently validate & verify all information, including measurements visually depicted in the floor plan, as well as scenarios created by utilizing the program.
